# Liquid Pay Cards

## Using the Liquid Pay Card for Purchases

Liquid Pay Cards work just like traditional credit cards for **In-Store** and **Online** Purchases. Integrates SEPA and SWIFT international banking systems, allowing you to send and receive fiat currencies across borders.

## Liquid Pay Conversion Process

The required amount of cryptocurrency is **automatically converted** to FIAT currency at the current market exchange rate.

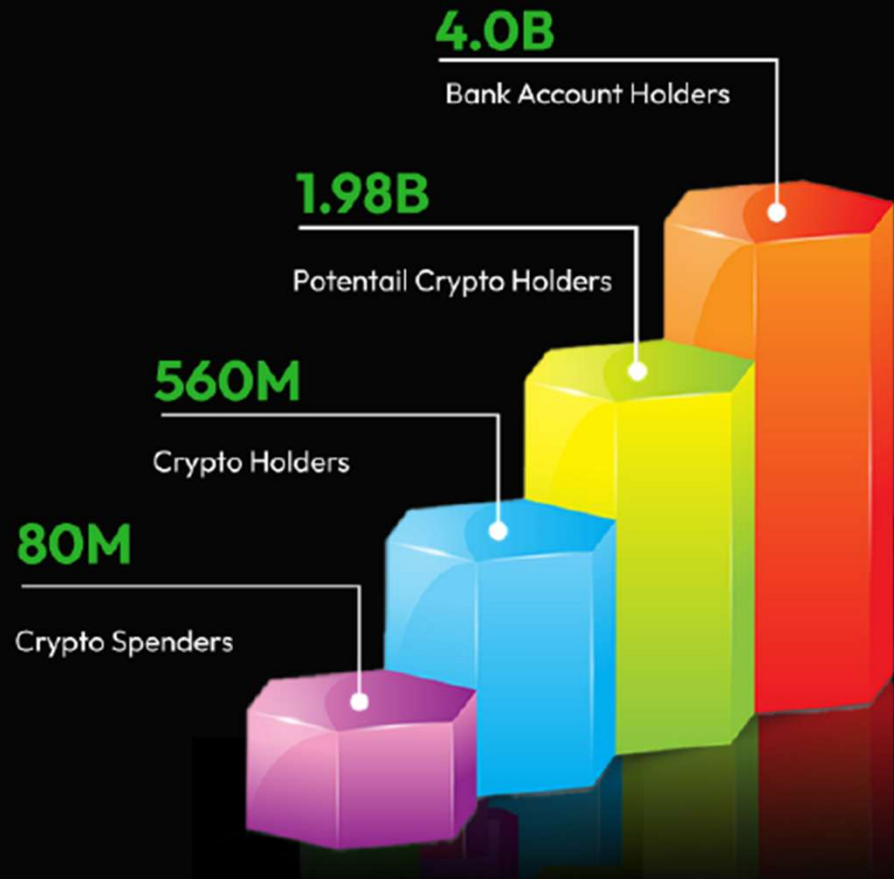

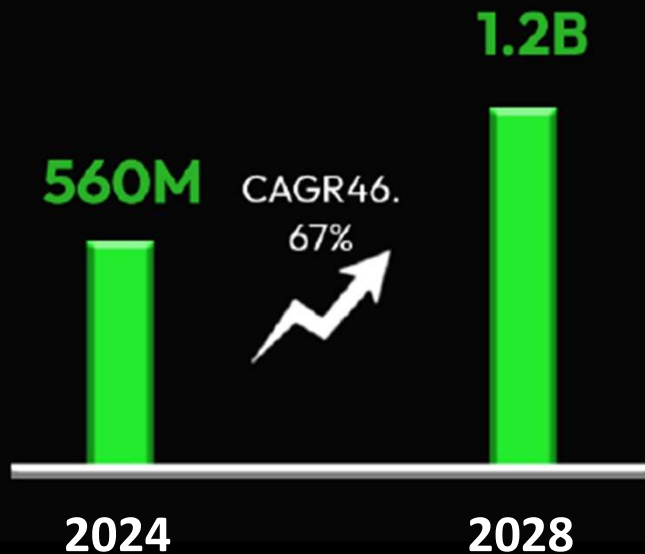

This ensures that merchants receive payment in their local currency. You can also withdraw cash from ATMs, just like with a regular card.

## Liquid Pay Card Provides Superior Security

Liquid Pay provides Multi-Factor Authentication to mitigate risk and Advanced Fraud Detection to monitor transactions for suspicious activity. For your peace of mind, Insurance Coverage is also provided for any unauthorized actions.

# CRYPTO MARKET POTENTIAL

Currently, **only 2%** of bank account holders actively use cryptocurrency for spending.

# **Liquid Pay** CASHBACKS EXAMPLE

In 2021, the average US Business Visa Debit Card user spent \$975 per month. Depending on which Liquid Pay card purchased you will earn 1%, 2% or 3% Cash Back on all transactions that your Affiliate Members purchase each month.

Using \$975/mo in Transactions will yield Cash Back Revenues per Month

	1%	2%	3%
10 Liquid Pay Users =	\$97.50	\$195.00	\$292.50
25 Liquid Pay Users =	\$243.75	\$487.50	\$731.25
50 Liquid Pay Users =	\$487.50	\$975.00	\$1,462.50
100 Liquid Pay Users =	\$975.00	\$1,950.00	\$2,925.00
250 Liquid Pay Users =	\$2,437.50	\$4,875.00	\$7,312.50

You are only limited by the numbers who you can bring into your Affiliate Membership team & your revenues will vary based on actual monthly transaction amounts.
